Subject: RE: Contractor Inquiry by Phone - Jill Hernandez, Kleinfelder

I referred her to you because it seems she was talking about the OU-10 Area 40 in Folsom, CA.

Hi, Jackie. Since, Daewon is the groundwater RPM I'll defer to him, but I'm guessing our recent plane map generated by EA/HDR might do. And Alex I'm sure could help.

Dear Lynn:

I just got off the phone with Jill Hernandez, Kleinfelder (801) 713-2872 – jhernandez@kleinfelder.com . Without revealing who she was at first, she asked for a map depicting the Aerojet contamination. I asked a couple of questions. She then said she had a site near Natoma just north of one of the Aerojet monitoring well. That's about all I got out of her. It all jelled for me when she gave me her email address. I told her that you could probably help her more than I could with the more specific technical questions and gave her your phone number. Now, that I am off the phone, I really should have referred her to Alex as well. I still told her I would send her a map – which one should I send her?

Jackie
